DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 06/24/2003 has been considered and made of record. A copy of the 1449 initialed, dated and signed by the Examiner is included herewith. Regarding the IDS, the Examiner notes that the IDS did not include abstracts of the JP references not discussed in the application (as noted on the 1449), but rather, translations of claim 1 of each of these references. Each reference has been considered in light of the corresponding, translated claim.

Claim Objections

3. Claim 7 is objected to because of the following informalities: it appears that the word "has" should be inserted at line 3 before the phrase "a center-line average". Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it is unclear whether the term "tabular" at line 6 is intended to modify both "inorganic compound particles" and "metal particles" or only the former.

Claim 11 contains improper Markush language. At the last line, the word "and" should be changed to --or--. See MPEP 2173.05(h).

Allowable Subject Matter

6. Claims 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

7. Claims 2-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or to suggest a method for forming a glossy image comprising using the combination of heat transfer sheets ((A) and (B)) and image receiving sheet (C) as set forth in independent claim 1 and imagewise transferring the image forming layer of each of the transfer sheets (A) and (B) to the image receiving layer of the image receiving sheet (C) by laser thermal transfer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
